

## Daas Africa

### Project Brief:

Daas Africa is a Data gathering company focused on the agriculture, infrastructure and tourism sectors. They are looking for a basic website to market their services and provide contact information.

### Requirements:

- A very clean, static and simple website.
- One page with a hamburger menu
- They want a monochrome look
- They like the design of <https://freefallcreative.co> and <https://snp.agency>
- Their colors are black and white which are also the colors of their logo
- Daas Africa should be written using Salt and Pepper font (Avenir Next Bold), the rest of the site use freefall creative font (Montserrat)
- They want the following sections i.e About, Benefits, Projects and Contact section.
  - About - what Daas is and what they do.
  - Benefits - why data and the datasets.
  - Projects - portfolio showcasing the projects they have done.
  - Contact - contact form and contact details.
- They do not have images, feel free to use stock images.
- Due date : 19 May 2021 at 3pm

They are going to send through their writing content after they are done compiling it. In the meantime we can design a landing page that leaves room for customization when content comes.
